C-EPMBPC-11 Free Exam Study Guide! (Updated 232 Questions)

C-EPMBPC-11 Dumps for SAP Certified Application Associate Certified Exam Questions and Answer

SAP C-EPMBPC-11 Exam Syllabus Topics:

Topic 1- Design packages and import data using the Data Manager- Configure environments and dimensions
Topic 2- Explain model types and dimensions, configure embedded models, and describe BW integration for Models- Plan with Analysis for Office
Topic 3- Perform administration optimization and configure audit- Script Logic and Calculations
Topic 4- Define the business rules by preparing the data, defining the global rules- Environments and Dimensions- Designing elimination rules
Topic 5- Execute BPC Web client consolidation by preparing the data and running month-end closing tasks- BPC Web client consolidation
Topic 6- Explain and position calculation options, syntax, and run script logic- Explain BPC solutions and real time planning in S- 4HANA

NO.117 What step is required to configure data audit for BPC standard?

- * Activate the collection of data by environment
- * Activate the collection of data by model
- * Add a global parameter in Customizing (SPRO)

- * Add a parameter to data manager packages.

NO.118 Select the correct word for- Where the system writes the result of spread. (1)

- * Column
- * Row
- * Cell
- * Destination

NO.119 You are building an EPM report and would like to leverage local members. What can you use to maintain local members?

Note: There are 3 correct answers to this question

- * Dimension member formulas
- * Page axis
- * Row axis
- * Report editor
- * Excel formulas

NO.120 What all are the elements involved in making Analysis Levels

There are 3 correct answers

Response:

- * Attitude
- * Tactical
- * Behavioral
- * Strategic
- * Operational

NO.121 A customer wants to load certain accounts with both local and reporting currencies without doing a currency translation. What expression in the formula of the business rule for currency conversion would leave the reporting currency value unchanged? 1

BPC440

- * [NOTRANS]
- * [COPYLC]
- * [ASJS]
- * [END]

NO.122 What implementation step is required to add a new hierarchy for a dimension member?

Please choose the correct answer.

Response:

- * Insert the hierarchy name into the `‘APPROVALORG’` web application parameter.
- * Insert the hierarchy name to the `‘TOPDOWN’` web application parameter.
- * Insert `‘PARENTH2’` into the dimension property list.
- * Insert `‘PARENTH2’` column after `‘PARENTH1’` within the dimension member sheet.

NO.123 You are working in a BPC Embedded system. What object can you maintain immediately after creating an environment? (1)

- * Report
- * Dimension

- * Business Process Flow
- * Team

NO.124 Which of the following steps are mandatory if you want to perform a transport from the development system to the production system(administration)? (2)

- * run a full optimization
- * select planning and consolidation objects in theBW transport collector
- * take the environment offline
- * run the transport-create request (UJBPCTR) transaction

NO.125 You are using BPC Standard 11.0. Which of the following do you define in the US Elimination Business Rule? (3)

- * Entity dimension
- * Multipliers
- * Architecture
- * Source audit
- * Source accounts

NO.126 You want to be able to insert comments in an Excel popup in SAP BusinessObjects Planning and Consolidation version for NetWeaver?

What do you have to enable?

There are 2 correct answers to this question.

Response:

- * The Enable Comments indicator in model features
- * Model parameters in Customizing (SPRO)
- * The Show as Microsoft Excel Comments checkbox
- * Environment parameters in Customizing (SPRO)

NO.127 You have two models:one for Expense, and another for Sales.Both models have the same Profit centerdimention.You would like users to perform reporting on both models as follows:

In column A:Expense values

In column B:Profitcenters

In column C:Sales values

Which methods can you use to accomplish this requirement?

Note:There are 2 correct answers to this question.

Note: Answers to this question are not verified by our experts, please study yourself and select the appropriate answers.

Contribute: Please send the correct answers with reference text/link on feedback@erpprep.com to get up to 50% cashback.

Response:

- * [EPMRetrieveData](#);formulas.
- * [Shared axis](#); reporting

- * The outer dimension option.
- * The repeat row headers property.

NO.128 You are working in a BPC Standard system. Your customer has the following requirements:

- .Report with key dates
- .Enable comments at the account level
- .Track data updates by account
- .Calculate KPIs on the fly

What do you configure in your account dimension?

Note: Answers to this question are not verified by our experts, please study yourself and select the appropriate answers.

Contribute: Please send the correct answers with reference text/link on feedback@erpprep.com to get up to 50% cashback.

Response:

- * Enable comments
- * Enable time dependent hierarchies
- * Enable dimension member formulas
- * Enable data audit

NO.129 Currency translation calculations typically work as follows: 2 BPC440

- * The change is bought over at the average rate plus the difference between the END and AVG rate multiplied by the LC.
- * Translation differences can be written to separate flow members.
- * Opening balance is bought in at the END rate plus the change in the END rates multiplied by the closing LC value.
- * The closing balance is valued at the LC times the END rate.
- * Translation differences are also written to the journal document DSO.

NO.130 How do you configure the data Manager package to execute a specific logic script file? (1)

- * define the logic script file in the process chain
- * define the logic script file in the advanced package settings
- * define the logic script file in the package link
- * define the logic script file as a variable in package parameters

NO.131 How can characteristic relationships be used? Note: There are 3 correct answers to this question

- * To distribute data based on valid combinations.
- * To delete data based on invalid combinations.
- * To derive data based on BW hierarchies.
- * To check combinations based on S/4HANA data.
- * To disaggregate based on reference data.

NO.132 What are the two modes of transport supported?

There are 2 correct answers to this question

Response:

- * Deletion mode
- * Normal mode
- * Inactive mode
- * Active mode

NO.133 47. You have two models: one for Expense, and another for Sales. Both models have the same Profit Center dimension. You would like users to perform reporting on both models as follows:

In column A: Expense values in column B: Profit centers in column C Sales values Which methods can you use to accomplish this requirement?

Note: There are 2 correct answers to this question.

- * Shared axis; reporting.
- * The repeat row headers; property
- * EPMRetrieveData; formulas.
- * The outer dimensionl option.

NO.134 What information is needed when you configure the interface between EPM office Add-In Excel and BEx query to enable the BW drill through?

There are 3 correct answers to this question.

Response:

- * The filter IOBJNM VALUE parameters
- * The technical names of the InfObject
- * The OKCODE parameter
- * The technical field names of the Dimensions
- * The URL of the BEx query

NO.135 64. Identify the 3 different types of Logic. 3 BPC440

- * Rate type
- * Front-End
- * Stored Output
- * On the fly
- * Models

NO.136 A KPI should be calculated centrally, on-the-fly, and be available to all reports. Which implementation option

do you choose? (1)

- * Dimension Member Formulas
- * Worksheet Logic
- * Script Logic
- * Business Rules

NO.137 You want to use a data manager package to load data from an InfoProvider in BPC for NetWeaver. What is supported? (2)

- * Using JavaScript in the transformation files

- * Mapping only one key figure to the target data although source data has multiple key figures
- * Loading data from an InfoCube, but not from a DataStore Object
- * Selecting data pertaining to specific master data values to load

NO.138 In SAP BusinessObjects Planning and Consolidation for NetWeaver, the language texts are missing. How do you fix this issue? (1)

- * Refresh dimension members.
- * Load data from the InfoProvider.
- * Import transaction data.
- * Import master data descriptions.

NO.139 Identify the different dimension types

There are 2 correct answers to this question

Response:

- * Category
- * Account
- * Hyperlinks
- * BOSC
- * Library

SAP C-EPMBPC-11 Exam Description:

This certification test verifies the knowledge in the area of SAP Business Planning and Consolidation 10.1 and 11.0. It validates that the Associate Consultant has a good sound knowledge and understanding of SAP Business Planning and Consolidation in SAP Business Planning and Consolidation 10.1, and SAP Business Planning and Consolidation, version for SAP BW/4HANA. (BPC Embedded version 11.0). Based on that knowledge, the successful Associate is able to apply those acquired skills to perform a variety of appropriate implementation, customization and maintenance related tasks within a project team and contribute positively to the success of a project under the guidance of senior project team members. A typical Associate - SAP Business Planning and Consolidation 10.1/11.0 consultant would have a maximum of three years experience in the field but project experience should not be prerequisite for a competent and well trained candidate to pass this exam.
