SAP C_SMPADM_30 Exam Description:

The "SAP Certified Application Associate - SAP Mobile Platform Native and Hybrid Application Administration (SMP 3.0)" certification exam verifies that the candidate possesses the fundamental and key administration knowledge required of an SAP Mobile Platform administrator. This certificate proves that the candidate has an overall understanding and in-depth technical skills for SAP Mobile Platform installation, configuration, security, monitoring, troubleshooting, and core administration, and can implement this knowledge practically in projects under the guidance of an SAP Mobile Platform expert. It is recommended as an entry-level qualification to allow consultants to get acquainted with the foundations of SAP Mobile Platform administration functionality.
