DES-6322 Exam Dumps, DES-6322 Practice Test Questions
PDF (New 2022) Actual EMC DES-6322 Exam Questions

The Importance of DELL DES-6322 Certification

The importance of this DELL certification exam is that it is a vendor-driven exam, and it is a way for Dell to avoid losing the support of VxRail since VMware and HP also provide virtualization solutions. The certification also helps the participants get a head start on promoting themselves in the IT field. Refunded exams are available as well as the possibility of rescheduling, as long as they inform the company two business days prior to their exam. Feel free to ask any questions you may have about this DELL exam. **DES-6322 exam dumps** are the latest exam preparation materials, with which you can easily pass your Dell certification exam. Expanding knowledge in the IT field is the priority of many, and this DELL certification exam gives you just that. View yourself as someone who is prepared for what is coming in the future of IT. Refreshed material will also be available every two weeks.

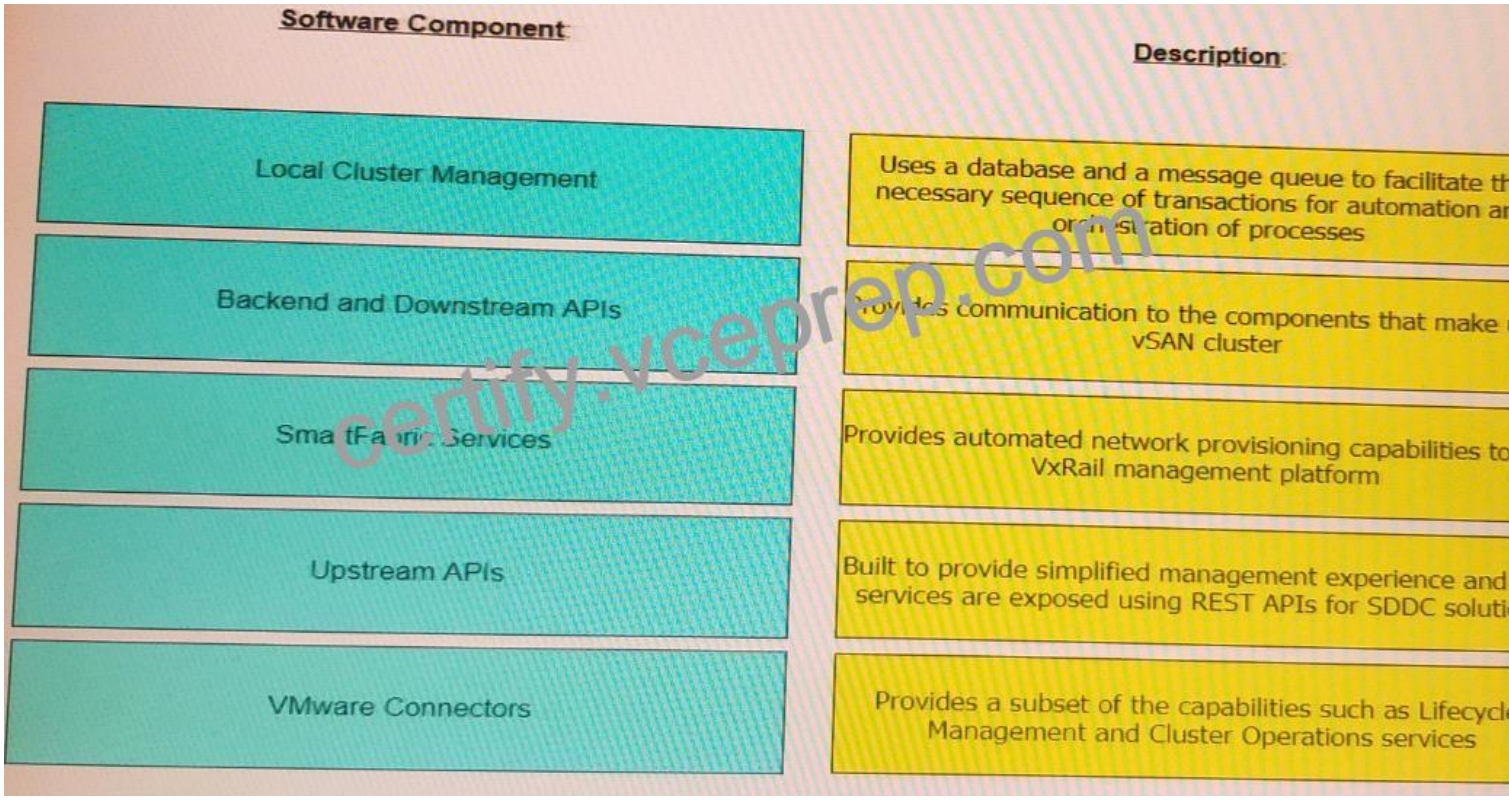
What are the prerequisites for DELL DES-6322 Exam

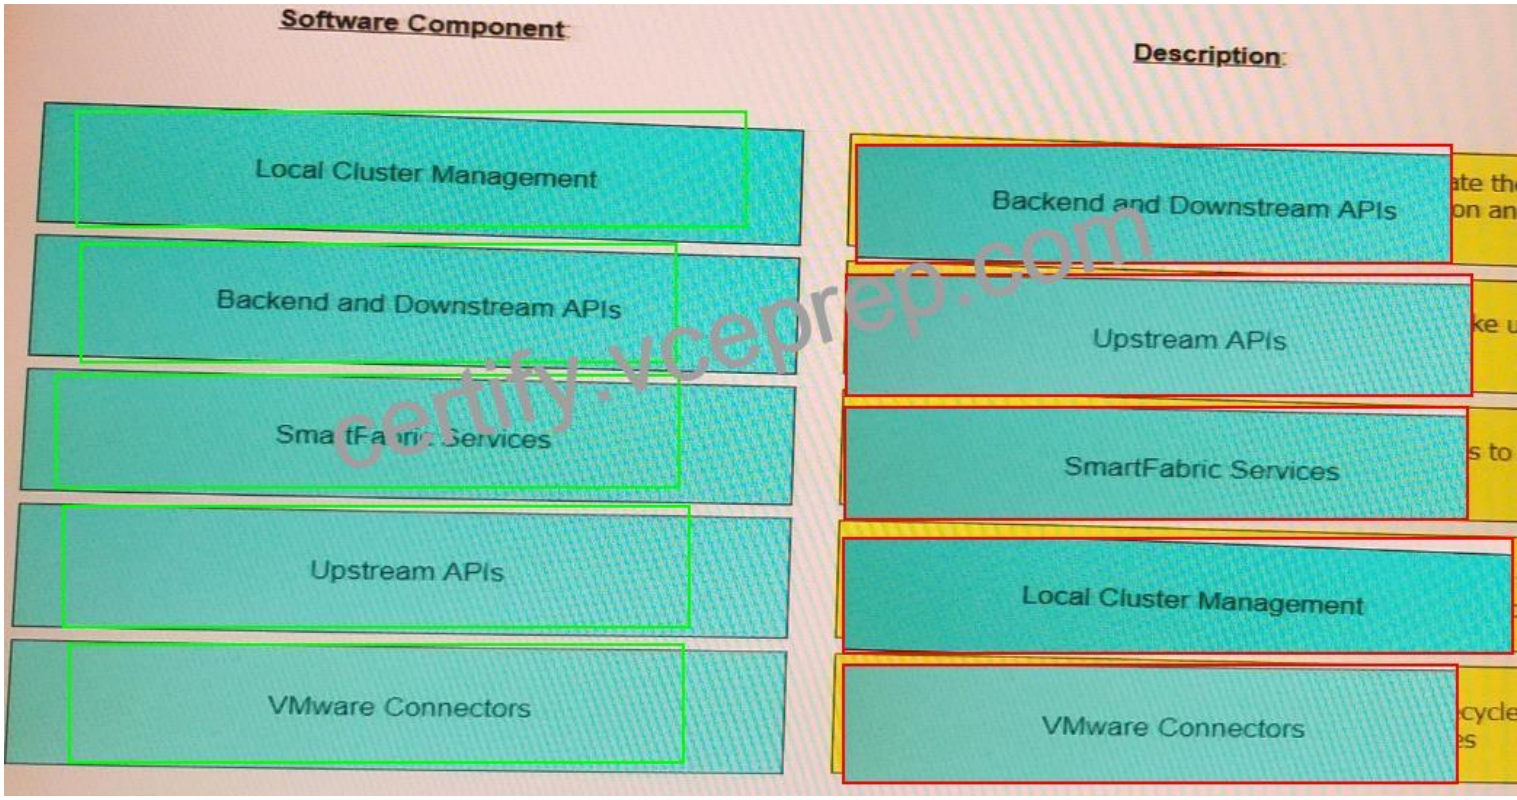
A participant should have basic knowledge about computers, networking, operating systems, storage, and virtualization. Knowledge of the VMware virtualization software (vSphere or ESXi) is mandatory. You should also be aware of the VMware Certified Professional (VCP) certification requirements for this exam. Delivered in traditional and HTML format, the test engine has a self-assessment test, interactive testing environment, and online tools.
Node and network knowledge is also mandatory, as well as some knowledge about storage and networking. With this knowledge,

you will be able to build the proper network configurations for the exam. Satisfaction with the prerequisites is mandatory in order to take the exam. Planning is imperative to ensure that you are prepared for the exam, and this will help you get to the desired score. Purchase of the certification is mandatory for you to get prepared for the exam. DELL **DES-6322 exam dumps** are generated by Foundation & Technical Skills which are revised from time to time. This exam dumpspanda is renewed upon the release of a new version.

NEW QUESTION 41

Match each component of the VxRail HCI System Software to its description.





NEW QUESTION 42

What are the requirements for a customer-supplied VDS in a VxRail deployment?
* 4 or 8 uplinks

Port groups for Discovery, Management, vMotion, and vSAN only
* 2 or 4 uplinks

Port groups for Discovery, Management, vMotion, and vSAN only
* 2 or 4 uplinks

Port groups for Discovery, Management vCenter Server, vMotion, and vSAN
* 4 or 8 uplinks

Port groups for Discovery, Management, vCenter Server, vMotion, and vSAN

NEW QUESTION 43

A systems engineer is tasked to configure a VxRail cluster and notices that the VxRail Deployment Wizard fails to launch. The engineer discovers that the software is corrupted.

What should the engineer do to address the issue?
* Use the VMware Host Client and iDRAC to access the nodes for troubleshooting
* Verify that the JSON file is not corrupted and has all the required values
* Return the nodes to the original build state
* Check vCenter and troubleshoot the build failure

NEW QUESTION 44

A systems engineer needs to ensure that the VxRail system is healthy and any issues found are addressed prior to starting an upgrade process. Where in the vSphere Client can they review alarms and overall vSAN health?
* Triggered Alarms > Issues and Alarms > All issues

Triggered Alarams > vSAN > Skyline Health
* Monitor > All Issues > Issues and Alarms

Monitor > vSAN > Health
* Triggered Alarms > All Issues > Issues and Alarms

Triggered Alarms > vSAN > Health
* Monitor > Issues and Alarms > All issues

Monitor > vSAN > Skyline Health

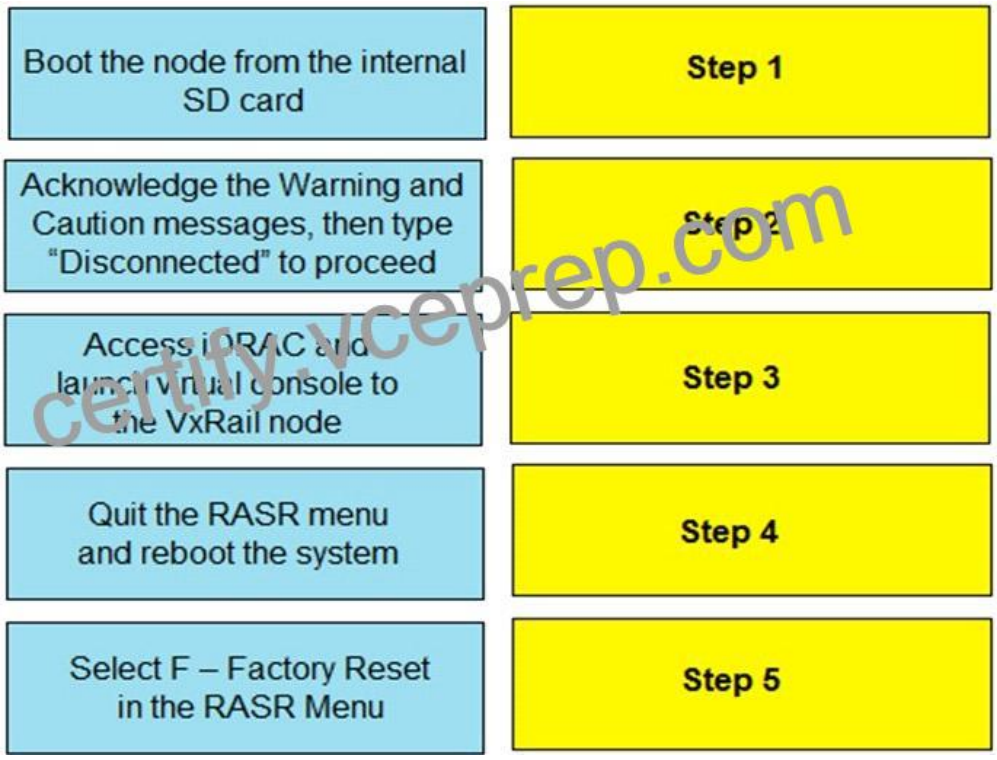
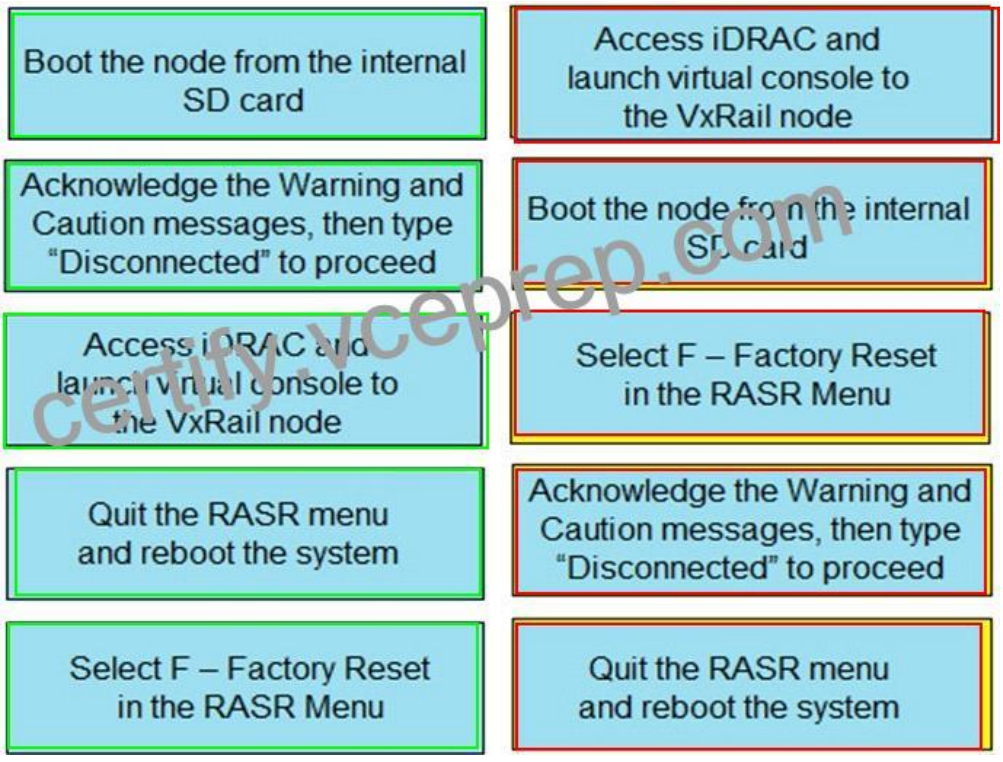
NEW QUESTION 45

What is the correct sequence of steps to perform a RASR Factory Reset using an SD card?

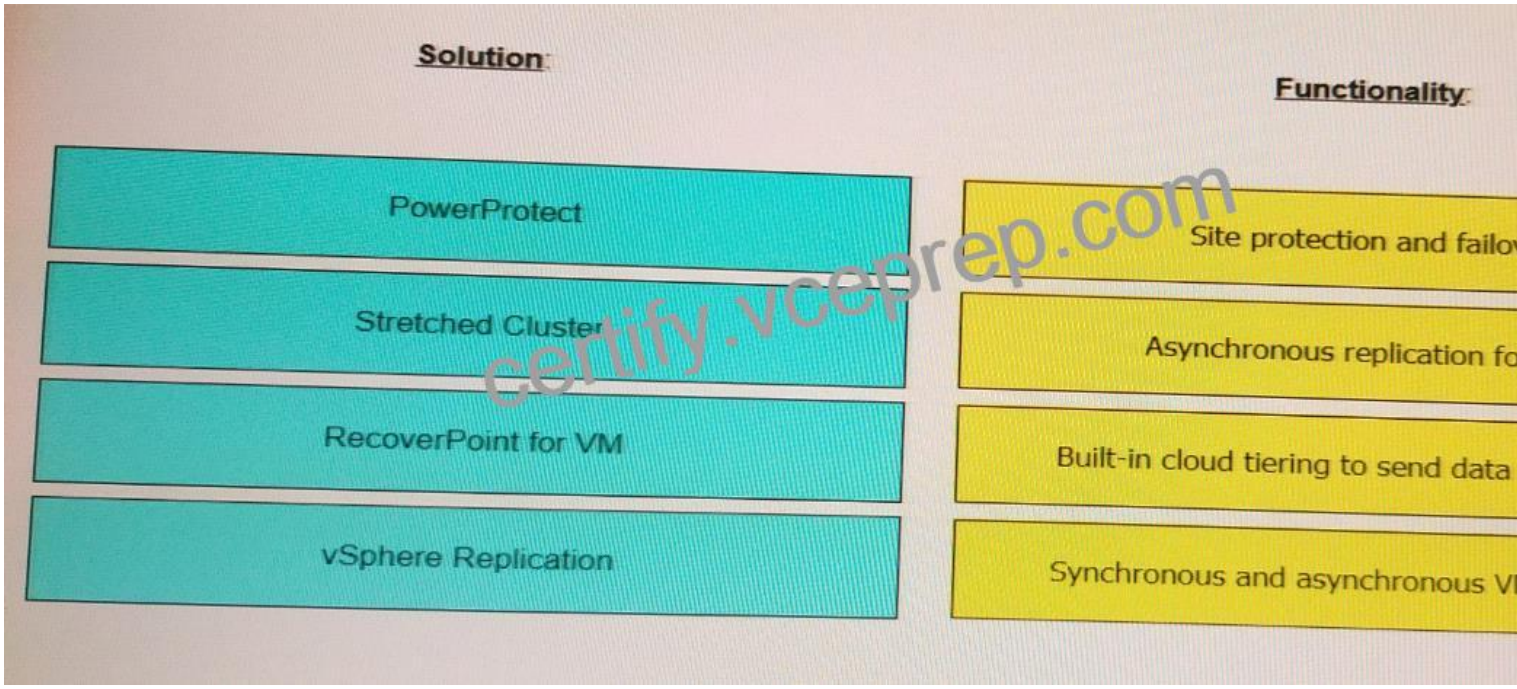


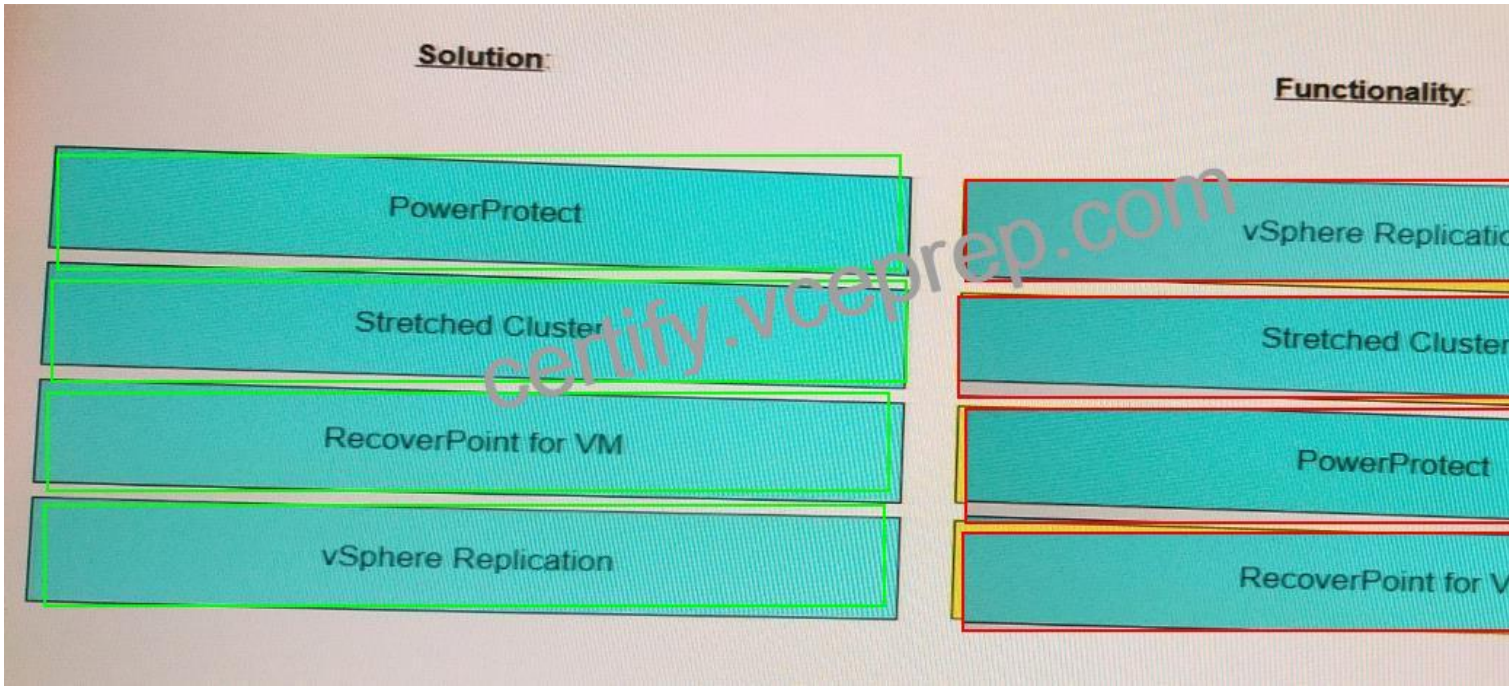


certify.vceprep.com

NEW QUESTION 46

Match each VxRail, data protection solution with its functionality.





NEW QUESTION 47

What is the maximum number of supported nodes in a VxRail Stretch Cluster?

* 16
* 30
* 32
* 64

NEW QUESTION 48

How must node ports on Dell EMC ToR switches be configured when the Spanning Tree Protocol is enabled in an environment?
* In Port-Channel mode
* In Forwarding status
* As edge ports
* As access ports

NEW QUESTION 49

Which command can be used from the VxRail Manager VM to restart the loudmouth daemon?
* systemctl restart loudmouth
* /usr/lib/vmware/loudmouth/bin/loudmouthd restart
* /etc/init.d/loudmouth restart
* systemctl restart vmware-loudmouth

NEW QUESTION 50

What is the maximum number of supported nodes for a VxRail cluster running on a 1 GbE network?
* 4
* 5
* 16
* 32

NEW QUESTION 51

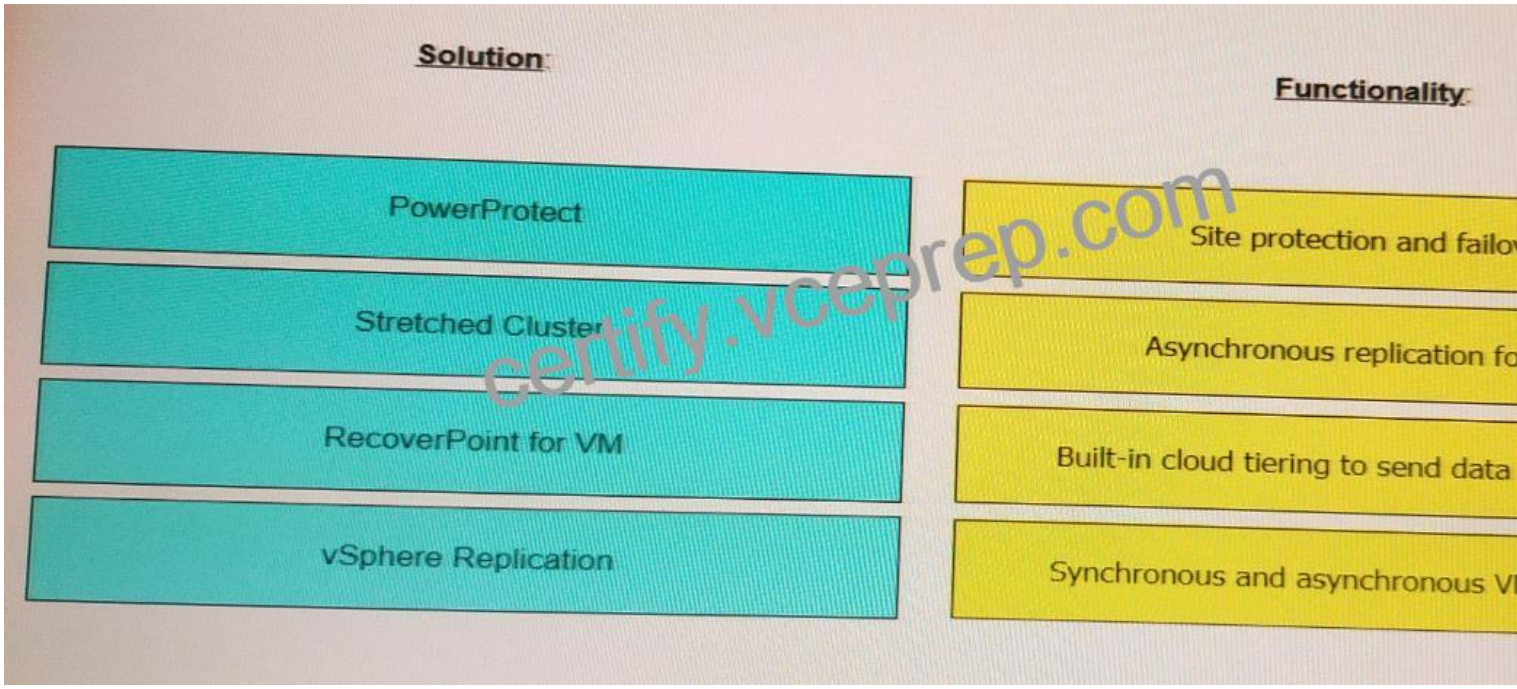
What is a benefit of using the VxRail REST API?
* Remote upgrades of iDRAC related software only
* Programmatically gather VxRail system health
* Polling for vSAN performance statistics
* Automated security audits of VxRail clusters

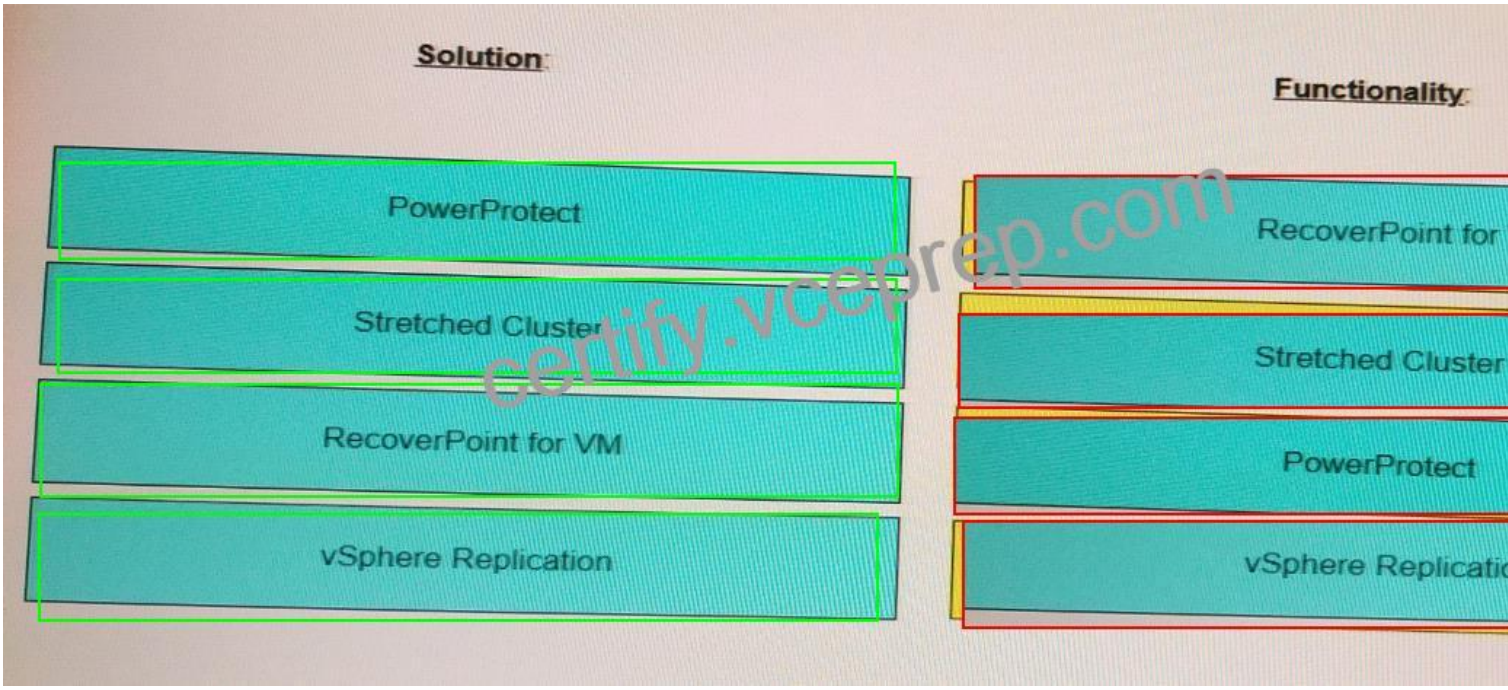
NEW QUESTION 52

What is the recommended format for host names when using the VxRail Deployment Wizard for an External vCenter solution?
* FQDN for vCenter Server Host name for VxRail Manager
* Host name for both vCenter Server and for VxRail Manager
* FQDN for both vCenter Server and for VxRail Manager
* Host name for vCenter Server FQDN for VxRail Manager

NEW QUESTION 53

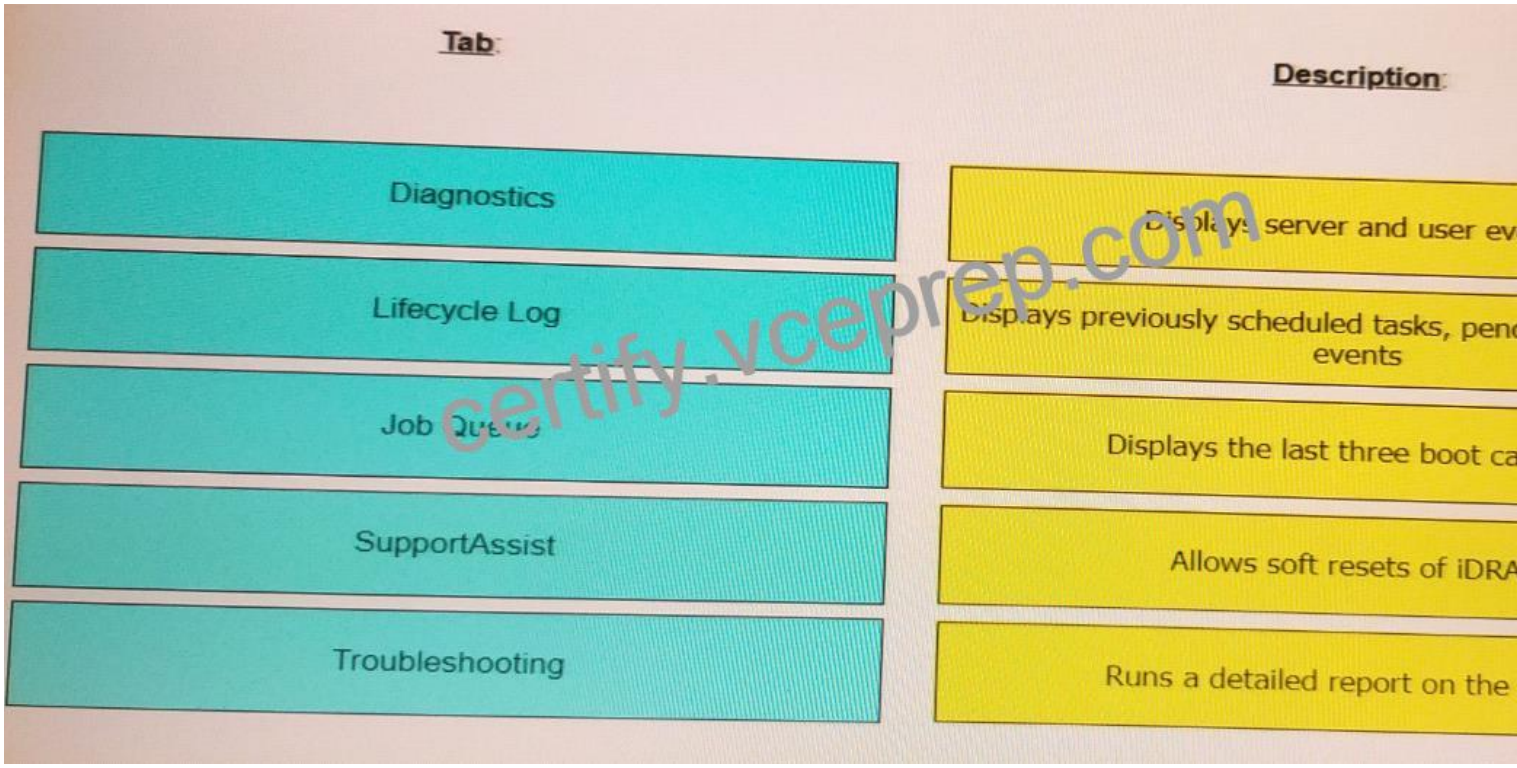
Match each VxRail, data protection solution with its functionality.

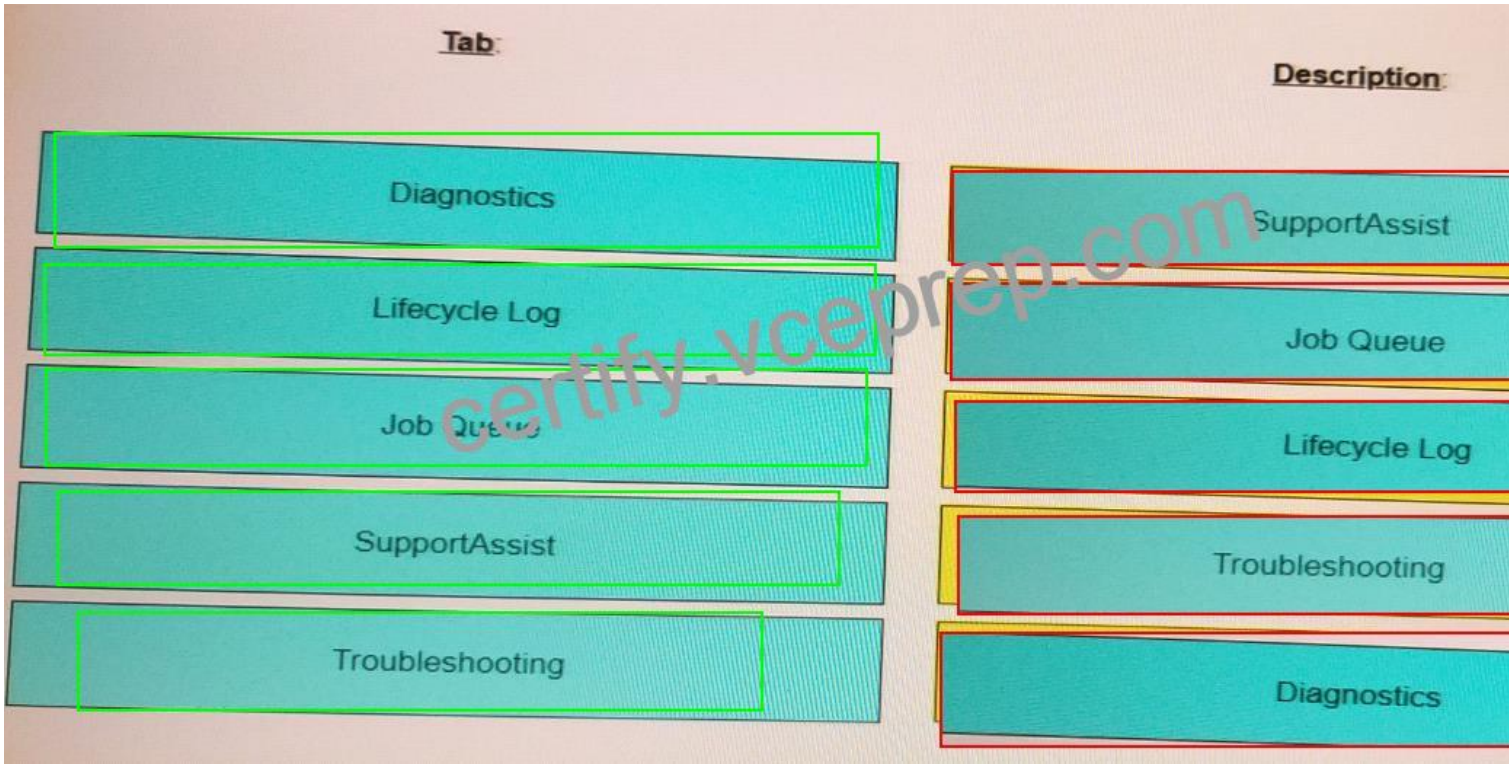




NEW QUESTION 54

Match each IDRAC Maintenance page tab to its description.





NEW QUESTION 55

What setting is used for the object space reservation in the VXRAIL-SYSTEM-STORAGE-PROFILE?

* 50% Reservation
* Thick Provisioning

* 75% Reservation
* Thin Provisioning

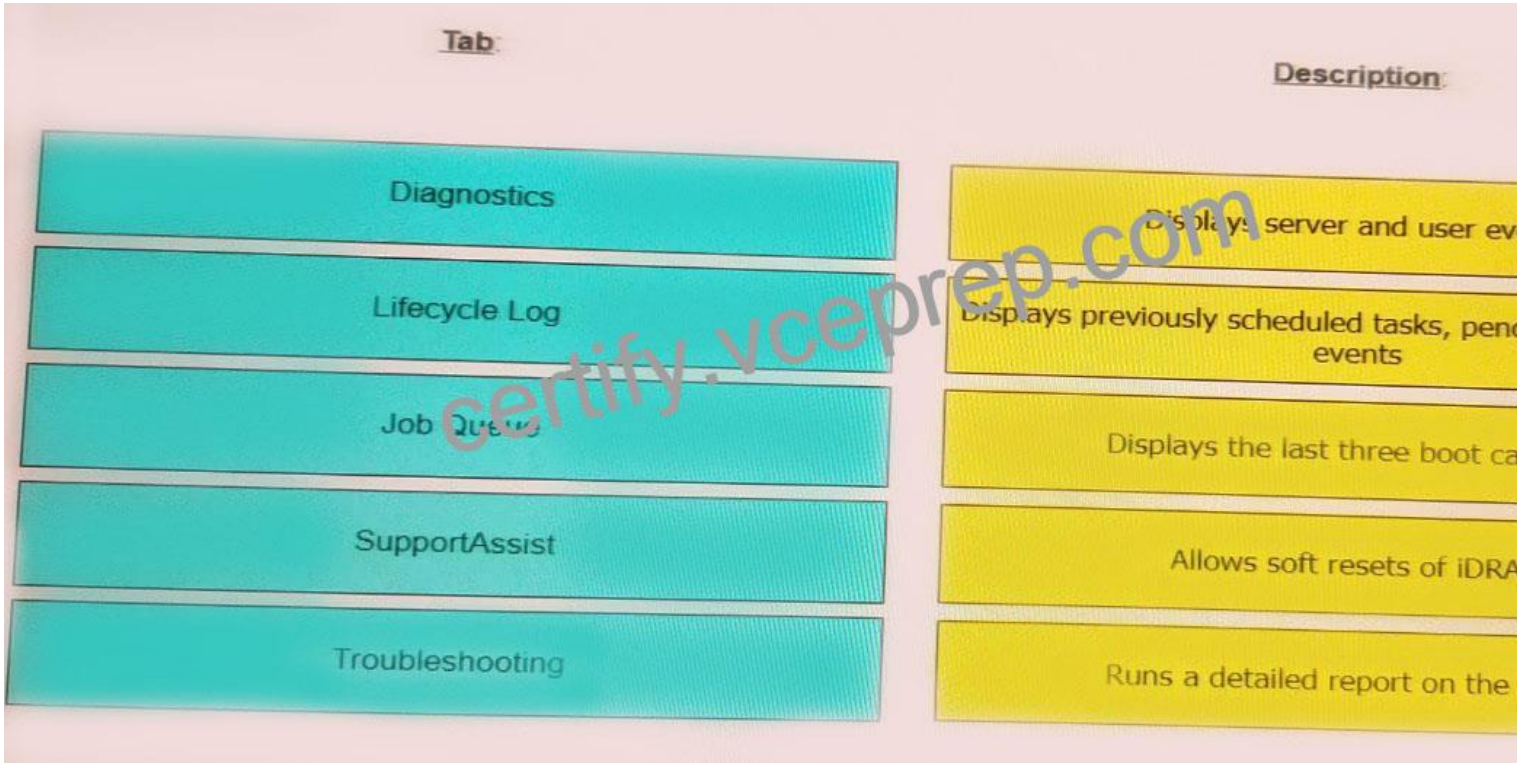
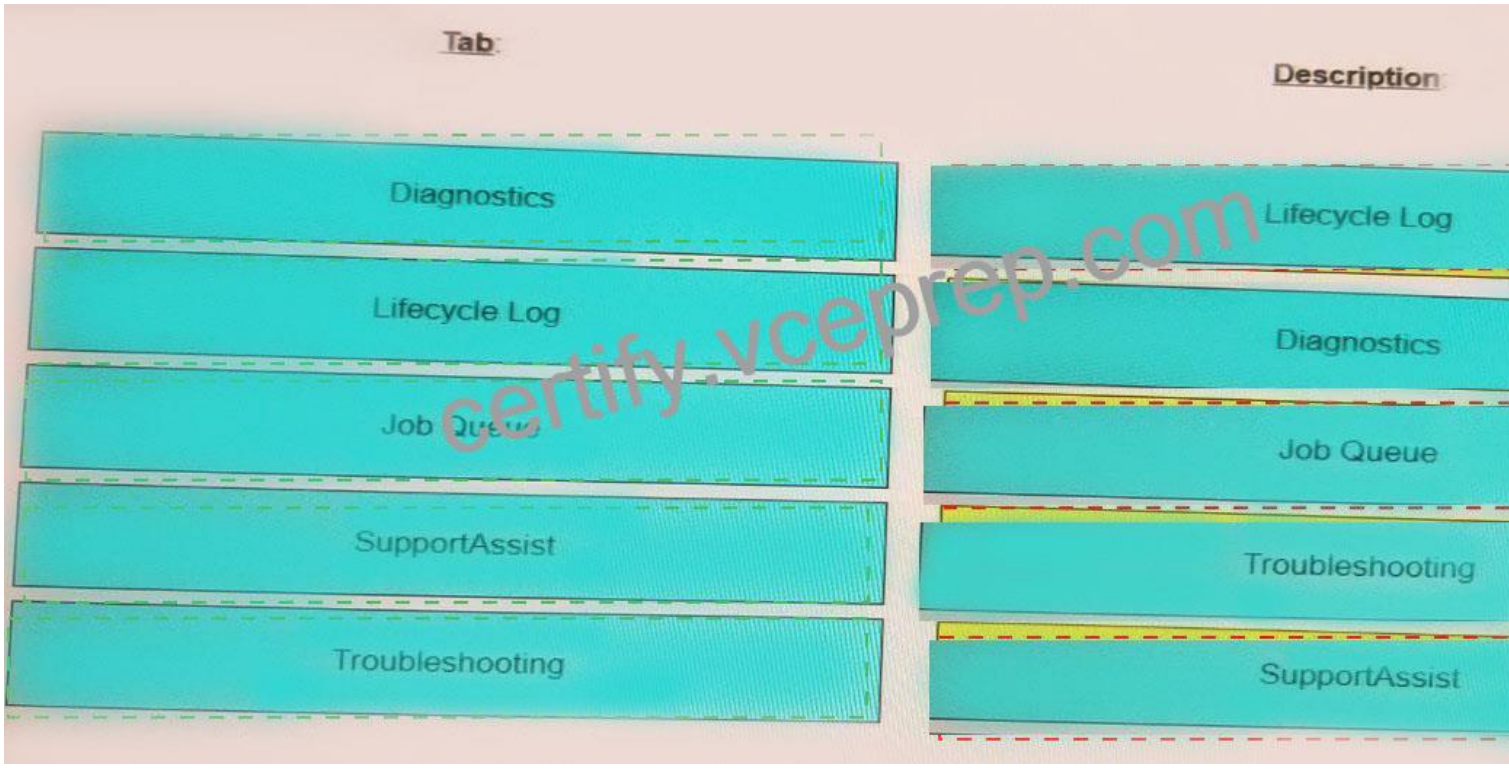
NEW QUESTION 56

Match each IDRAC Maintenance page tab to its description.





certify.vceprep.com

NEW QUESTION 57

An implementation engineer is configuring External SRS. Where can they find the installation files for SRS VE?

* VxRail Support Matrix
* VxRail Manager

* SolVe Online
* Dell Support Page

NEW QUESTION 58

When preparing to generate an As-Built Configuration Report, it is determined that the VxRail Configuration JSON file was not saved from the Deployment Wizard. What actions must be taken to retrieve the JSON file?
* SSH to the VxRail Manager VM with the mystic user

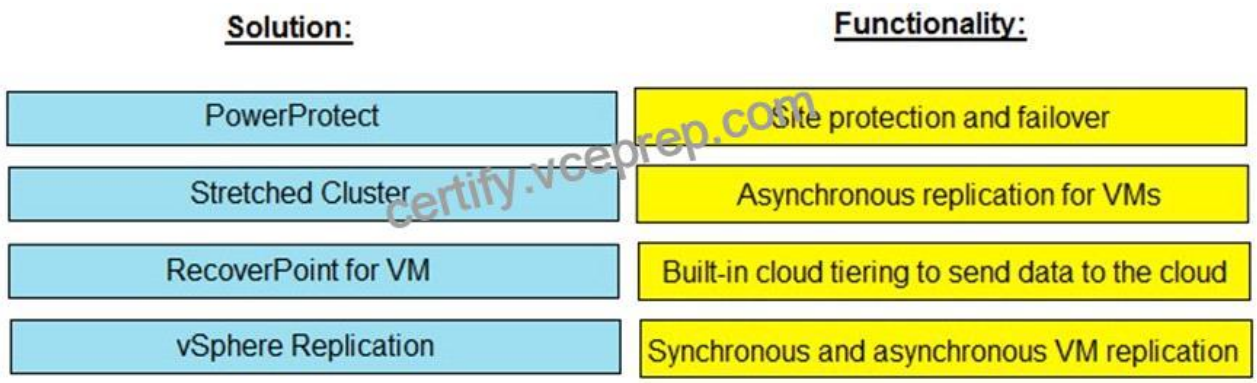
SU to root

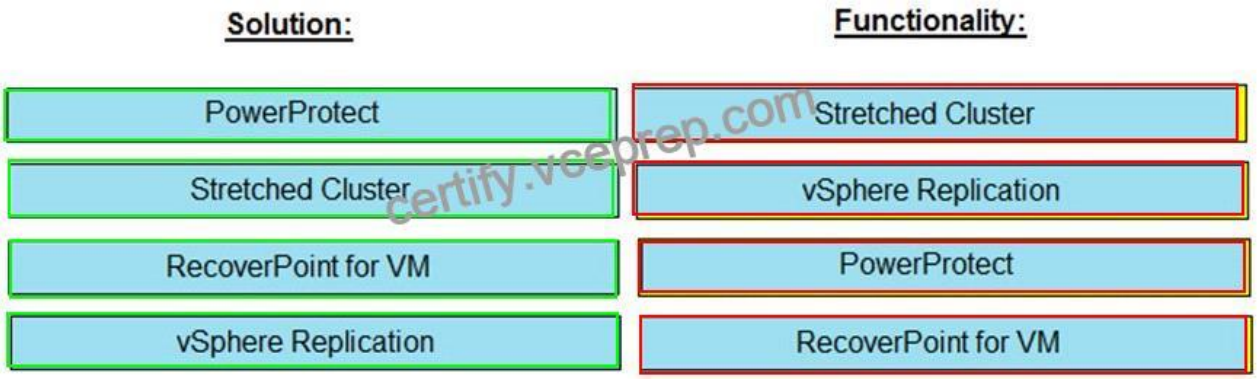
Go to the /opt/VxRail/config directory

SCP the initial-config json file to a local location
* Log in to vCenter with the vSphere Client with the vCenter Server Management user Go to Monitor > VxRail > Last Configuration Data Sent Use the Download option
* Open an FTP connection to the VxRail Manager VM with the mystic user Go to the /var/lib/vmware-marvin directory GET the config-initial json file
* Log in to vCenter with the vSphere Client with the vCenter Administration user Go to Configure > VxRail > System Use the Product Documentation option

NEW QUESTION 59

Match each VxRail data protection solution with its functionality.





NEW QUESTION 60

A VxRail Cluster has just been deployed. Use the VxRail simulator to determine the Service Tag, Model, and ESXJ IP Address of the first node – vcluster730.esx01.edu.local.

Note: It is necessary to dose (x) the simulator window before you can select a response to this question.
