Positive Aspects of Valid Dumps C\_S4CAM\_2111 Exam Dumps! [Dec-2022]

First Attempt Guaranteed Success in C\_S4CAM\_2111 Exam 2022

**NO.16** You want to map the operating hours of a pump. What settings are necessary to set up a measuring point for this requirement? Note: There are 2 correct answers to this question.

- \* Define an upper range limit
- \* Define a measurement position for the measuring point
- \* Specify the measuring point as a counter
- \* Define an annual estimate value

**NO.17** You define a maintenance strategy with two maintenance packages. Which parameter influences the selection of both maintenance packages, if they are due at the same time?

- \* Initial buffer
- \* Hierarchy
- \* Offset
- \* Cycle length

**NO.18** What can you use the View Browser app to do?

- \* Create, edit, and delete CDS views
- \* Launch analytic cloud stories
- \* Get a list of all available analytical CDS views and their artifacts
- \* Display custom SAP views irrespective of draft or released status

**NO.19** Which of the following asset management business objects can be migrated to SAP S/4HANA Cloud?

Note: There are 2 correct answers to this question.

- \* Maintenance plan
- \* General maintenance task list
- \* Cycle set
- \* Maintenance strategy

**NO.20** Which tasks can be performed by a Maintenance Technician role in the Reactive Maintenance process?

Note: There are 3 correct answers to this question.

- \* Review maintenance cost
- \* Update malfunction details
- \* Update failure data
- \* Execute maintenance orders
- \* Maintain service entry sheet

**NO.21** Which resources do you use when planning a Fit-to-Standard workshop? Note: There are 2 correct answers to this question.

- \* Business process flows
- \* Business process test automates
- \* Test scripts
- \* Legacy system configurations

**NO.22** You are using Self-Service Configuration User Interfaces (SSCUIs) to configure a preventive maintenance process for SAP S/4HANA Cloud. Which of the following can you define using SSCUIs? Note: There are 2 correct answers to this question.

- \* Sort fields for maintenance plans
- \* Planner groups for task lists
- \* Plant sections
- \* Maintenance plan categories

**NO.23** You are implementing the SAP S/4HANA Cloud solution. Besides the new / upcoming Central Business Configuration (CBC), what can you define within the available self-service configuration UIs in SAP S/4HANA Asset Management? Note: There are 3 correct answers to this question.

- \* Planner groups
- \* Maintenance order types
- \* Maintenance plan categories
- \* Measuring point categories
- \* Maintenance activity types

**NO.24** When scheduling the maintenance plan, which call objects can be generated automatically? Note: There are 2 correct answers to this question.

- \* Notifications
- \* Task lists
- \* Measurement documents

- \* Service entry sheets

**NO.25** You have defined planning plants for your organization. What is a planning plant used for? Note: There are 2 correct answers to this question.

- \* It is used to plan the maintenance tasks for technical objects.
- \* It is used to aggregate capacities of maintenance orders.
- \* It is used to assign multiple maintenance plants.
- \* It is used to calculate costs of maintenance order operations.

**NO.26** To which asset management objects can you assign a main or responsible maintenance work center in SAP S/4HANA Cloud? Note: There are 3 correct answers to this question.

- \* Maintenance notification
- \* Planning data of a maintenance plan
- \* Maintenance order operation
- \* Item data of a maintenance plan
- \* Maintenance planning bucket

**NO.27** Which adjustments can be made using Custom Analytical Queries? Note: There are 3 correct answers to this question.

- \* Copy a query from an SAP-delivered standard query
- \* Trace development objects in a query
- \* Convert unit measures for fields in the Data Source
- \* Modularize your custom code for use in queries
- \* Suppress rows or columns containing zeros

**NO.28** Which activities can you execute in the Maintain Business Roles SAP Fiori app? Note: There are 2 correct answers to this question.

- \* Maintain catalog roles
- \* Assign business catalogs to a business role
- \* Maintain restrictions
- \* Assign PFCG profiles to a business role

**NO.29** You have defined a maintenance strategy for your maintainable assets. To which objects can you assign the maintenance strategy? Note: There are 2 correct answers to this question.

- \* To a maintenance order operation
- \* To a task list
- \* To an equipment
- \* To a maintenance plan

**NO.30** What are the prerequisites when setting up a time-based strategy plan? Note: There are 2 correct answers to this question.

- \* Assign various time-based cycles to the planning data of a maintenance plan
- \* Assign maintenance strategies to task list headers
- \* Assign maintenance strategies to maintenance plan items
- \* Assign maintenance packages to task list operations

**NO.31** You are using a single cycle plan with a cycle length of 28 days. You want to schedule the call dates one week before the planned dates. Which settings can you use to achieve this? Note: There are 2 correct answers to this question.

- \* Call horizon = 7 days
- \* Call horizon = 25%
- \* Call horizon = 75%
- \* Call horizon = 21 days

**NO.32** Which of the following are outcomes of the Fit-to-Standard workshop? Note: There are 3 correct answers to this question.

- \* Solution impact on business processes
- \* Extensibility solutions to close gaps
- \* Finalized scope and integration requirements
- \* Expert configuration definition
- \* Identification of source code changes

**NO.33** Which steps are required for data load preparation? Note: There are 3 correct answers to this question.

- \* Determine data requirements based on scenario reviews
- \* Design programs or reports required to extract data and initiate data cleansing
- \* Perform full data load to determine the required loading times
- \* Review data load templates and determine data mapping
- \* Determine if public or private cloud is required for data migration

**NO.34** What is the purpose of configuring a structure indicator? Which of the following objects can you maintain when defining a structure indicator? Note: There are 2 correct answers to this question.

- \* Edit mask
- \* Equipment category
- \* Hierarchy levels
- \* Category of functional location

**NO.35** Based on the SAP Activate methodology, which activities must you perform in the Explore phase? Note:

There are 2 correct answers to this question.

- \* Use the Starter system to demonstrate SAP Best Practices processes
- \* Conduct the Fit-to-Standard workshops to enable customers and identify gaps
- \* Use the Quality system to demonstrate SAP Best Practices processes
- \* Configure the organizational structure and chart of accounts in the system

**NO.36** What are your options if an out-of-the-box integration between SAP S/4HANA Cloud and another SAP solution is NOT available? Note: There are 2 correct answers to this question.

- \* Infrastructure as a Service
- \* Whitelisted APIs
- \* Integration tools
- \* Unrestricted firewall

**NO.37** Which types of datasets are required for predictive scenarios? Note: There are 2 correct answers to this question.

- \* Active Dataset
- \* Training Dataset
- \* Testing Dataset
- \* Apply Dataset

**NO.38** How is the productive system configured? Note: There are 2 correct answers to this question.

- \* Through transports from the quality system
- \* Via the Cloud Application Lifecycle Management (CALM) Implementation Portal
- \* Through Central Business Configuration (CBC) in SAP Business Technology Platform
- \* Through the Solution Documentation component of the SAP Solution Manager

**NO.39** Why is de-coupling your extensions from SAP S/4HANA Cloud required? Note: There are 2 correct answers to this

question.

- \* To ensure extensions do not conflict with SAP software updates
- \* To guarantee the stability of the system
- \* To allow customers to take advantage of predefined user exits
- \* To enhance existing functionality within the application itself

**NO.40** What is the purpose of using an Overhead Maintenance process?

- \* To evaluate and adjust the overhead costs in maintenance orders
- \* To record activities that are not part of typical maintenance work
- \* To streamline the execution of maintenance plans
- \* To allow maintenance supervisors to have early cost estimates of maintenance work
