Positive Aspects of Valid Dumps C_S4CAM_2111 Exam Dumps! [Dec-2022]

First Attempt Guaranteed Success in C_S4CAM_2111 Exam 2022

NO.16 You want to map the operating hours of a pump. What settings are necessary to set up a measuring point for this requirement? Note: There are 2 correct answers to this question.

- * Define an upper range limit
- * Define a measurement position for the measuring point
- * Specify the measuring point as a counter
- * Define an annual estimate value

NO.17 You define a maintenance strategy with two maintenance packages. Which parameter influences the selection of both maintenance packages, if they are due at the same time?

- * Initial buffer
- * Hierarchy
- * Offset
- * Cycle length

NO.18 What can you use the View Browser app to do?

- * Create, edit, and delete CDS views
- * Launch analytic cloud stories
- * Get a list of all available analytical CDS views and their artifacts
- * Display custom SAP views irrespective of draft or released status

NO.19 Which of the following asset management business objects can be migrated to SAP S/4HANA Cloud?

Note: There are 2 correct answers to this question.

- * Maintenance plan
- * General maintenance task list
- * Cycle set
- * Maintenance strategy

NO.20 Which tasks can be performed by a Maintenance Technician role in the Reactive Maintenance process?

Note: There are 3 correct answers to this question.

- * Review maintenance cost
- * Update malfunction details
- * Update failure data
- * Execute maintenance orders
- * Maintain service entry sheet

NO.21 Which resources do you use when planning a Fit-to-Standard workshop? Note: There are 2 correct answers to this question.

- * Business process flows
- * Business process test automates
- * Test scripts
- * Legacy system configurations

NO.22 You are using Self-Service Configuration User Interfaces (SSCUIs) to configure a preventive maintenance process for SAP S/4HANA Cloud. Which of the following can you define using SSCUIs? Note: There are 2 correct answers to this question.

- * Sort fields for maintenance plans
- * Planner groups for task lists
- * Plant sections
- * Maintenance plan categories

NO.23 You are implementing the SAP S/4HANA Cloud solution. Besides the new / upcoming Central Business Configuration (CBC), what can you define within the available self-service configuration UIs in SAP S/4HANA Asset Management? Note: There are 3 correct answers to this question.

- * Planner groups
- * Maintenance order types
- * Maintenance plan categories
- * Measuring point categories
- * Maintenance activity types

NO.24 When scheduling the maintenance plan, which call objects can be generated automatically? Note: There are 2 correct answers to this question.

- * Notifications
- * Task lists
- * Measurement documents

* Service entry sheets

NO.25 You have defined planning plants for your organization. What is a planning plant used for? Note: There are 2 correct answers to this question.

- * It is used to plan the maintenance tasks for technical objects.
- * It is used to aggregate capacities of maintenance orders.
- * It is used to assign multiple maintenance plants.
- * It is used to calculate costs of maintenance order operations.

NO.26 To which asset management objects can you assign a main or responsible maintenance work center in SAP S/4HANA Cloud? Note: There are 3 correct answers to this question.

- * Maintenance notification
- * Planning data of a maintenance plan
- * Maintenance order operation
- * Item data of a maintenance plan
- * Maintenance planning bucket

NO.27 Which adjustments can be made using Custom Analytical Queries? Note: There are 3 correct answers to this question.

- * Copy a query from an SAP-delivered standard query
- * Trace development objects in a query
- * Convert unit measures for fields in the Data Source
- * Modularize your custom code for use in queries
- * Suppress rows or columns containing zeros

NO.28 Which activities can you execute in the Maintain Business Roles SAP Fiori app? Note: There are 2 correct answers to this question.

- * Maintain catalog roles
- * Assign business catalogs to a business role
- * Maintain restrictions
- * Assign PFCG profiles to a business role

NO.29 You have defined a maintenance strategy for your maintainable assets. To which objects can you assign the maintenance strategy? Note: There are 2 correct answers to this question.

- * To a maintenance order operation
- * To a task list
- * To an equipment
- * To a maintenance plan

NO.30 What are the prerequisites when setting up a time-based strategy plan? Note: There are 2 correct answers to this question.

- * Assign various time-based cycles to the planning data of a maintenance plan
- * Assign maintenance strategies to task list headers
- * Assign maintenance strategies to maintenance plan items
- * Assign maintenance packages to task list operations

NO.31 You are using a single cycle plan with a cycle length of 28 days. You want to schedule the call dates one week before the planned dates. Which settings can you use to achieve this? Note: There are 2 correct answers to this question.

- * Call horizon = 7 days
- * Call horizon = 25%
- * Call horizon = 75%
- * Call horizon = 21 days

NO.32 Which of the following are outcomes of the Fit-to-Standard workshop? Note: There are 3 correct answers to this question.

- * Solution impact on business processes
- * Extensibility solutions to close gaps
- * Finalized scope and integration requirements
- * Expert configuration definition
- * Identification of source code changes

NO.33 Which steps are required for data load preparation? Note: There are 3 correct answers to this question.

- * Determine data requirements based on scenario reviews
- * Design programs or reports required to extract data and initiate data cleansing
- * Perform full data load to determine the required loading times
- * Review data load templates and determine data mapping
- * Determine if public or private cloud is required for data migration

NO.34 What is the purpose of configuring a structure indicator? Which of the following objects can you maintain when defining a structure indicator? Note: There are 2 correct answers to this question.

- * Edit mask
- * Equipment category
- * Hierarchy levels
- * Category of functional location

NO.35 Based on the SAP Activate methodology, which activities must you perform in the Explore phase? Note:

There are 2 correct answers to this question.

- * Use the Starter system to demonstrate SAP Best Practices processes
- * Conduct the Fit-to-Standard workshops to enable customers and identify gaps
- * Use the Quality system to demonstrate SAP Best Practices processes
- * Configure the organizational structure and chart of accounts in the system

NO.36 What are your options if an out-of-the-box integration between SAP S/4HANA Cloud and another SAP solution is NOT available? Note: There are 2 correct answers to this question.

- * Infrastructure as a Service
- * Whitelisted APIs
- * Integration tools
- * Unrestricted firewall

NO.37 Which types of datasets are required for predictive scenarios? Note: There are 2 correct answers to this question.

- * Active Dataset
- * Training Dataset
- * Testing Dataset
- * Apply Dataset

NO.38 How is the productive system configured? Note: There are 2 correct answers to this question.

- * Through transports from the quality system
- * Via the Cloud Application Lifecycle Management (CALM) Implementation Portal
- * Through Central Business Configuration (CBC) in SAP Business Technology Platform
- * Through the Solution Documentation component of the SAP Solution Manager

NO.39 Why is de-coupling your extensions from SAP S/4HANA Cloud required? Note: There are 2 correct answers to this

question.

- * To ensure extensions do not conflict with SAP software updates
- * To guarantee the stability of the system
- * To allow customers to take advantage of predefined user exits
- * To enhance existing functionality within the application itself

NO.40 What is the purpose of using an Overhead Maintenance process?

- * To evaluate and adjust the overhead costs in maintenance orders
- * To record activities that are not part of typical maintenance work
- * To streamline the execution of maintenance plans
- * To allow maintenance supervisors to have early cost estimates of maintenance work
