* Custom tabs are NOT deployed.

**QUESTION 208**

The VP of marketing wants to broadcast an emailto 10,000 contacts insalesforce on a regular basis, but realizes salesforce&#8217;smass email functionality has alimitation on the number of emails that can besent each day
* Download all contacts to a CSV file and use an email client to send the emails
* Request salesforce increase the number of maximum daily emails
* Develop apex code and Visualforce pages to sent the emails
* Research and evaluate products available on appExchange to send mass emails
Explanation: Tabular, Summary, or Matrix to Joined The existing report becomes the first block in the joined report, and the report type becomes the principle report type for the joined report. Joined report blocks are formatted as summary reports, so if you switch

from a summary to a joined report, your groupings stay the same. If you switch from a matrix to a joined report, groupings are converted the same way as when you switch from a matrix to a summary report. The following items aren&#8217;t supported in joined reports, and aren&#8217;t converted: Bucket fields Cross filters The Rows to Display filter https://help.salesforce.com/htviewhelpdoc?id=reports_changing_format.htm&siteLang=en_US
