Excellent H35-460-ENU PDF Dumps With 100% VCEPrep Exam Passing Guaranted [Jun-2023]
100% Pass Your H35-460-ENU HCIA-5G-RAN V1.0 at First Attempt with VCEPrep

QUESTION 12

When the NodeB automatically obtains an IP address through DHCP, which of the following message information is involved?
* DHKPACK
* DHCPOFFER
* DHCPREQUEST
* DHCPDISCOVER

QUESTION 13

NR is divided into competitive and non-competitive random access, what is the main purpose of UE triggering random access?
* Uplink authorization
* Gets system messages
* Get upstream synchronization

* Send measurement reports

QUESTION 14

The QoS of gNB is to implement hierarchical congestion management of services by mapping DSCP values.
* True
* False

QUESTION 15

gNodeB The order in which hardware devices are added is "cabinet->chassis-> single board->RF unit".
* True
* False

QUESTION 16

When the gNodeB is enabled with the MassiveMIMO function, select "Beam" in the "Antenna Configuration Mode" in the sector device parameters.
* True
* False

QUESTION 17

In 5G base stations, which of the following is correctly interpreted regarding the ".ecf" suffix?
* Per-user tracking signaling files on the LMT
* This is an unencrypted script file
* This is an encrypted script file
* Files queried by cell OSI on the LMT

QUESTION 18

The uplink and downlink subframe ratio of 5G RAN2.0 gNodeB cell supports SA5.
* True
* False

QUESTION 19

What are the networking methods between the BBU and the RF unit? (Multiple Choice)
* Chain-type networking
* Star networking
* Tree-shaped networking
* Ring networking

QUESTION 20

If a CPE Pro device forgets its password, how long can I press the reset button on the near end to perform a factory reset?
* 8s
* 4s
* 20s
* 12s

QUESTION 21

CPRI fiber is recommended for multimode fiber when the BBU and RRU are connected over 150 meters.
* True
* False

QUESTION 22

In the ADD GNBOPERATOR configuration command, which of the following configuration options can NrNetworkingOption have?
* None
* ON-NSA
* SA
* NSA

QUESTION 23

What are the following layer two protocol of the 5G air interface control plane? (Multiple Choice)
* SDAP
* PDCP
* MAC
* RLC

QUESTION 24

What is the broadcast period of MIB messages in NR?
* 40ms
* 160ms
* 20ms
* 80ms

QUESTION 25

Which MML command is used when gNodeB add the DU cell in the 5G RAN2.0 version?
* ADD GNBDUCELL
* ADD NRLOCELL
* ADD NRDUCELL
* ADD GNBLOCELL

QUESTION 26

Before the gNode configuration is adjusted, in order to avoid alarm reporting and display in the network management foreground, the project status cannot be set to which of the following states?
* Expansion status
* Normal state
* Commissioning status
* Extension status

QUESTION 27

Which 4G main control boards can be connected to the upstream and downstream decoupling features of the 5G RAN2.0? (Multiple Choice)

* UMPTe
* LMPT
* UMPTb
* UMPTc

QUESTION 28

Which of the following half-width 5G baseband boards are supported by the BBU5900 in the V100R015 version?

* UBBPg3
* UBBPfw1
* UBBPg2a
* UBBPd

QUESTION 29

Which of the following requirements is generally included in the target rate of urban areas in eMBB scenarios of 5G?

* 10Gbps peak rate
* 100-200Mbps continuous coverage
* Target rate of 500Mbps
* 100Mbps continuous coverage
