

2023 Realistic C-S4CDK-2023 100% Pass Guaranteed Download Exam Q&A [Q47-Q66]

2023 Realistic C-S4CDK-2023 100% Pass Guaranteed Download Exam Q&A Accurate C-S4CDK-2023 Answers 365 Days Free Updates

SAP C-S4CDK-2023 Exam Syllabus Topics:

- Topic 1- Describe DevOps and Continuous Delivery, perform rapid setup of Continuous Delivery- Multi-Target Applications Development
- Topic 2- Describe security from an extensibility perspective- Advanced Extensibility Scenarios
- Topic 3- Explain the basic concepts of extensibility as it pertains RISE and Grow with SAP
- Topic 4- SAP S- 4HANA Cloud and Extensibility Overview- Create and configure Multi-Target Applications
- Topic 5- Explain the basic concepts of SAP Activate methodology as it pertains to RISE- DevOps and Continuous Delivery
- Topic 6- Define Cloud-Native Apps, and set up your environment- Explain the Continuous Delivery Pipeline
- Topic 7- Create Side-by-Side extensions, combine In-App and Side-by-Side Extensions- Create and expose In-App Extensions

NO.47 Which of the following activities do you perform during the Realize phase for organizational change? Note: There are 2 correct answers to this question.

- * Test Execution

- * Solution Extension Development
- * Quality System Request
- * End User Learning

NO.48 Which authentication and connection activity does the SAP Cloud SDK handle automatically?

- * It creates a communication arrangement with the user ID and password in the SAP S/4HANA Cloud system.
- * It determines the configuration by consuming the destination service on SAP Cloud Platform.
- * It exchanges the SAML assertion with the identity provider.
- * It manages user accounts and provides Single Sign-On.

NO.49 What do you confirm when the OAuth2 authorization server requests that you authorize an OAuth2 client?

- * That the OAuth2 client can act on behalf of the user only under a specific scope
- * That the OAuth2 client can act only on behalf of the cloud application
- * That the OAuth2 client can act only on its own behalf
- * That the OAuth2 client can always act on behalf of the user under the full set of scopes

NO.50 Which app can you use to display an overview of your extensibility items and to view associations or dependencies between various in-app extension items?

- * SAP Extensibility Explorer
- * Extensibility Cockpit
- * Extensibility Catalog
- * Extensibility Inventory

NO.51 In which SAP Activate phases is the Extensibility workstream executed? Note: There are 3 correct answers to this question.

- * Prepare
- * Explore
- * Deploy
- * Discover
- * Realize

NO.52 What must you do to mock SAP S/4HANA calls using SAP Cloud SDK? Note: There are 2 correct answers to this question.

- * Use annotation @InitClass on initClass() method.
- * Declare initialization method beforeClass().
- * Initialize testing params inside the setupClass() method.
- * Create an instance of the MockUtil class.

NO.53 Which activities can you perform with the Custom CDS View app? Note: There are 2 correct answers to this question.

- * Import CDS view from an XML file
- * Join multiple associated data sources
- * Modify the data type of a field in existing CDS views
- * Define input parameters

NO.54 What is the role of the Jenkins server in the SAP Cloud SDK Continuous Delivery Toolkit?

- * It is the main component that runs the build pipeline.
- * It is responsible for building the backend components.
- * It allows projects to be deployed to various SAP Cloud Platform accounts.
- * It starts the Cx server on the host or virtual machine.

NO.55 Which channel attribute represents the message endpoint of the SAP Cloud Platform Enterprise Messaging service on an SAP Platform account?

- * Channel Protocol
- * Channel Topic Space
- * Channel Destination
- * Channel Name

NO.56 Your JSON Web Token (JWT) is issued by the XSUAA service in the Cloud Foundry environment. What does this JWT contain?

- * The session ID of the user
- * The scope(s) to which the user is assigned
- * The list of applications the user can access
- * The SAML metadata of the user's identity provider

NO.57 Which steps do you perform to execute Gatling locally? Note: There are 2 correct answers to this question.

- * Include the Apache JMeter library.
- * Configure the Go Maven plugin.
- * Add Gatling plugins dependency to pom.xml.
- * Launch tests using the mvn clean gatling:execute command.

NO.58 What is the key element of reactive systems in the highly distributed environment of side-by-side extensions?

- * Synchronous interaction between a browser and a system
- * Synchronous API communication between systems
- * Secure inbound and outbound communication between systems
- * Asynchronous message-driven communication between systems

NO.59 Which of the following activities run in XSUAA during the authentication setup? Note: There are 2 correct answers to this question.

- * Issue and grant JSON Web Token
- * Validate JSON Web Token
- * Validate login details
- * Return response payload

NO.60 What are some advantages when you use the Gatling tool? Note: There are 2 correct answers to this question.

- * Performance tests can be written as source code.
- * Test plans are written in Python.
- * The speed is optimized by adding a local download cache.
- * It reuses connections for virtual users.

NO.61 Why do you use the SAP Cloud SDK Pipeline? Note: There are 2 correct answers to this question.

- * To batch work in specialized skills and roles
- * To rapidly deliver extension app projects
- * To detect violations of relevant quality standards
- * To harmonize the look and feel across all extension apps

NO.62 Which app do you use to explore possible enhancements to SAP S/4HANA Cloud?

- * Custom Fields and Logic
- * Extensibility Cockpit
- * Custom Catalog Extensions
- * Extensibility Inventory

NO.63 Which activity is part of information technology operations (Ops)?

- * Create – automate build process in dev system
- * Design – create new theme for better user experience
- * Configure – administrate the deployed release
- * Verify – deploy continuously into test system

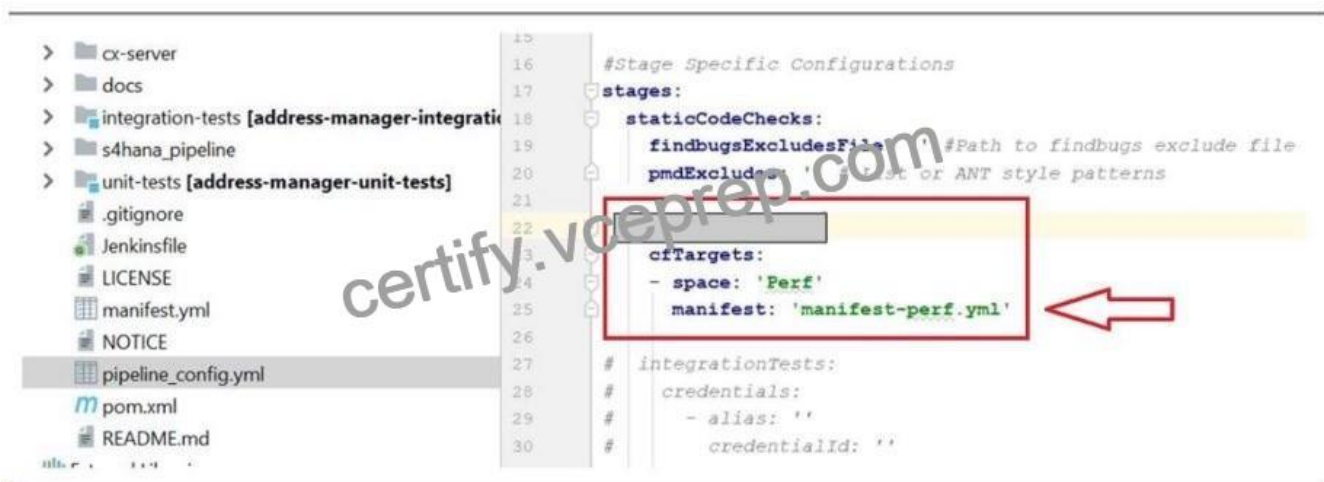

NO.64 Which of the following files do you use to configure Hibernate for multi-tenancy? Note: There are 2 correct answers to this question.

- * settings.xml
- * pom.xml
- * persistence.xml
- * config.xml

NO.65 In which format does SAP S/4HANA Cloud compose event topics?

- * <channel topic space>/<specific topic>/<service topic space>
- * <service topic space>/<channel topic space>/<specific topic>
- * <specific topic>/<channel topic space>/<service topic space>
- * <channel topic space>/<service topic space>/<specific topic>

NO.66 In the figure shown, what is the role of the manifest-perf.yml file?

- * It configures the stage-level values for specific stages.
- * It configures the credentials that will be used to connect to the Cloud Foundry environment account.
- * It configures the servers where the performance tests are carried out.
- * It configures the default values for test steps.
