

[Q17-Q37 Latest C-IBP-2311 Exam with Accurate Certified Application Associate - SAP IBP for Supply Chain PDF Questions [Jan 18, 2024]

[Jan 18, 2024] Latest C-IBP-2311 Exam with Accurate Certified Application Associate - SAP IBP for Supply Chain PDF Questions
Practice To C-IBP-2311 - VCEPrep Remarkable Practice On your Certified Application Associate - SAP IBP for Supply Chain Exam NEW QUESTION 17

How do you achieve rolling aggregation with SAP IBP?

- * Using an attribute as a key figure
- * Using an appropriate period weight factor
- * Using a key figure calculation
- * Using a local member

NEW QUESTION 18

You want to display and edit data in different Units of Measure (UOM). Which of the following must you consider before you use the UOM? Note: There are 3 correct answers to this question.

- * Analytics allow the user to select the target unit of measure
- * Units of measure are usually not time-independent.
- * Units of measure is an attributes of master data type, such as product
- * Units of measure are usually not time-dependent
- * Conversion to the target unit of measure is handled by the SAP IBP Excel add-in.

NEW QUESTION 19

Which planning operators can be executed in a time-series-based planning area? Note: There are 2 correct answers to this question

- * Constrained Forecast Run
- * Shelf Life Heuristics
- * Finite Heuristics
- * Deployment Optimizer

NEW QUESTION 20

Which type of master data represents the Master Data Type Component?

- * Virtual mater data type
- * Compound Master Data Type
- * Reference Master data type
- * External Master Data Type

NEW QUESTION 21

What are the possible ways that an attribute intended for use as an attribute as a key figure can be created and assigned? Note: There are 2 correct answers to this question.

- * Created as type DECIMAL and assigned to an external master data type
- * Created as type INTEGER and assigned to an compound master data type
- * Created as type INTEGER and assigned to a simple master data type

- * Created as type DECIMAL and assigned to an compound master data type

NEW QUESTION 22

Analytics charts are created by the user in the Advanced Analytics application. What can the user do in the Advanced Analytics app?

Note: There are 2 correct answers to this question.

- * Trigger export to Manage Analytics stories
- * Merge charts together.
- * Applying filters on there data
- * Group Data

NEW QUESTION 23

What actions can be performed in the Advanced Dashboards application? Note: There are 3 correct answers to this question.

- * Use drill-down functionality
- * Add Process instances
- * Link two analytics charts.
- * Rename the charts
- * Display all assigned analytics on a single UI

NEW QUESTION 24

A time profile is defined with these levels: day, technical week, week, month, and year. What condition in configuration will allow you to have a different value in the current week, versus all other time buckets?

- * IF (,PERIODID2=”SSPERIODID2CUSS…)
- * IF (“PERIODID4=”SSPERIODIDICUSS…)
- * IF (,PERIODID3=”SSPERIODID2CUSS…)
- * IF (“PERIODID1=”SSPERIODIDICUSS…)

NEW QUESTION 25

As an architect, you are configuring the Planner Workspaces user interface settings. Which appearance settings are on your to-do list? Note: There are 3 correct answers to this question

- * Adding planning view
- * Add Navigation profile
- * Define key figure formatting
- * Add custom alerts
- * Add playbooks for alerts

NEW QUESTION 26

Which processes are embedded in the sample planning areas SAP6 and SAP3?

- * SAP6 Control Tower, and SAP3 Sales and Operations Planning and Supply Planning
- * SAP6 Demand Planning and Sensing, and SAP3 Control Tower
- * SAP6 Demand Planning and Sensing, and SAP3 Inventory Planning
- * SAP6 Sales and Operations Planning and Supply Planning, and SAP3 Inventory Planning

NEW QUESTION 27

Which conditions have to be fulfilled as a prerequisite to maintain a key figure disaggregation? Note: There are 2 correct answers to

this question.

- * The key figure is calculated and system editable
- * The key figure is calculated and all editable.
- * The key figure is stored and system editable.
- * The key figure is stored and all editable

NEW QUESTION 28

What is an example of a commonly used time-independent key figure?

- * A Special key figure marked as an aggregate key figure (aggregate constraint)
- * A unit of measure key figure, such as UoM Conversion Factor
- * Any attribute as a key figure
- * A currency conversion key figure, such as Exchange Rate

NEW QUESTION 29

What are some of the prerequisites for configuring a planning area that results in a successful consistency check? Note: There are 2 correct answers to this question.

- * Configure at least one calculated key figure for the planning area
- * Specify a planning horizon in the planning area for each level of the assigned time profile
- * Configure at most two input key figures on the same planning level in a key figure calculation
- * Assign the compound master data type and its component master data types

NEW QUESTION 30

What are some of the available ABC segmentation methods in SAP IBP? Note: There are 2 correct answers to this question.

- * By Number of Items (Sorted Average)
- * By Pareto Principle (Sorted and Cumulated %)
- * By Number of Items (Sorted Value)
- * By Pareto Principle (Sorted and Calculated Values)

NEW QUESTION 31

You need to integrate data from SAP S/4HANA and legacy ERP to SAP IBP. What are the integration tools that you can use with such a setup for data transfer? Note: There are 2 correct answers to this question.

- * SAP Cloud Integration for data services
- * SAP Smart data Integration
- * Core Interface
- * Real-time Integration

NEW QUESTION 32

You need to define a new logic for a key figure to drive values from the PERPRODCUSTREGION level to the PERPRODCUST level. Which of the following configuration options are possible for this process? Note: There are 2 correct answers to this question

- * Splitting the values from detailed to aggregated level by using a copy operator
- * Splitting the values from aggregated to detailed level using multiplication by the proportions
- * Splitting the values from aggregated to detailed level, based on the time profile attribute
- * Splitting the values from aggregated to detailed level, based on a stored split-factor key figure

NEW QUESTION 33

You are modeling co-products in SAP Integrated Business Planning for Supply Chain. What are some of the properties of co-production you need to be aware of? Note: There are 2 correct answers to this question

- * The number of co-products that can be defined in the supply model is unlimited.
- * The output coefficient is time-dependent and should be modeled as a time series
- * The relationship between main product and co-product is specified in the production source of supply.
- * Co-production can be modelled only by supply optimizer and finite heuristics

NEW QUESTION 34

Model configuration allows the attributes of a master data type to be assigned as key figures Which feature is relevant for this type of object?

- * This type of key figure is not usually stored and it cannot be stable
- * This type of key figure has better performance than a time-independent key figure
- * This object usually provides a single value for a unique planning combination
- * This object contains user-defined criteria that monitor the running of business plan

NEW QUESTION 35

You are reviewing the master data types that are often used for supply and inventory planning. Which master data types are compound master data types? Note: There are 2 correct answers to this question

- * SOURCEPRODUCTION
- * SOURCECUSTOMER
- * SOURCELOCATION
- * SOURCECUSTGROUP

NEW QUESTION 36

The S&OP Operator Profiles app is used to configure different types of algorithms. Which algorithm-specific settings are unique for the Time Series-based Supply Optimizer? Note: There are 2 correct answers to this question.

- * Discretization
- * Time profile level
- * Global cost factors
- * Processing mode

NEW QUESTION 37

Which of the following solutions should be satisfied with violations penalized by the objective function of the time-series supply optimizer? Note: There are 3 correct answers to this question. Not adhering to maximum transport values

- * Violation of minimum resource utilization
- * Not respecting production capacity
- * Not-fully satisfied demands
- * Violation of minimum aggregated inventory values

SAP C-IBP-2311 Exam Syllabus Topics:

TopicDetailsTopic 1- Solution Architecture & Data Integration- Configure and use Planning Operators to automate processes in your planning modelTopic 2- Create and use key figures and attributes to model the supply chain- Define and view information with user-defined charts and dashboardsTopic 3- Describe how IBP extends the logic of S&OP in the network using advanced demand- Display, create, copy, edit, check, and activate a planning area
