VCEPrep PRINCE2-Agile-Foundation Dumps PDF - 100% Passing Guarantee
PRINCE2-Agile-Foundation Braindumps Real Exam Updated on Jan 18, 2024 with 94 Questions

Achieving the PRINCE2 Agile Foundation Certification demonstrates that the candidate has a solid understanding of the PRINCE2 Agile methodology and can apply it effectively in a project management context. It is an internationally recognized certification that is highly valued by employers, and it can help individuals to advance their career in project management. Additionally, the certification provides a strong foundation for further study and certification in PRINCE2 Agile, such as the PRINCE2 Agile Practitioner Certification.

NEW QUESTION 24

Which statement about velocity is CORRECT?

- * It is based on the concept of rationalism
- * It is shown by the ideal line on a bum-down chart
- * It describes how much work is getting done

- * It tracks the time and cost of a timebox

NEW QUESTION 25

How should team working agreements be created?

- * By the supplier subject matter expert agreeing what should be included
- * By the customer representative deciding what should be included
- * By team members agreeing on what should be included
- * By the project manager deciding what should be included

NEW QUESTION 26

Which statement about the Scrum framework is correct?

- * It gives confidence on the progress of the project
- * It can result in the early delivery of a minimum viable product
- * It allows misunderstandings to be dealt with appropriately
- * It is achieved by managing the culture of the team carefully

NEW QUESTION 27

Which statement describes the Kanban approach?

- * It is used to make system improvements using visualization and by controlling work in progress
- * It is an iterative timeboxed approach that helps teams generate value
- * It was originally focused in creating new companies and is now used to speed up product delivery
- * It has defined processes, products and roles used to iteratively deliver outputs using timeboxing

NEW QUESTION 28

Which is a benefit of the Lean Startup approach to releasing a product?

- * It provides a technique to reduce the testing of a product before release
- * It enables the release plans to be synchronized with the PRINCE2 plans
- * It reduces the number of people needed to manage a release of a product
- * It provides quick feedback that can be responded to at the earliest opportunity

NEW QUESTION 29

What does velocity typically measure?

- * Work packages completed by the team
- * The rate of progress the team is making
- * The number of timeboxes completed
- * The speed that a minimum viable product is created

NEW QUESTION 30

What should be decided when configuring PRINCE2 effectively?

- * What to remove and where to add guidance
- * Where to put the emphasis and where to add guidance
